GETTING BEHIND GERMANS

GEN. MAURICE, OF BRITISH STAFF, MAKES HIS REPORT

WOMAN FOUND IN SUICIDE CASE

(By Associated Press.)
ST. LOUIS, Aug. 10.—Alvina Perstrup, until seven months ago a stenographer in the employ of the Lambert Pharmaceutical company, revealed that she was the mysterious woman who called the apartment of Jordan W. Lambert on the telephone Tuesday morning and asked the maid if he were well.

This telephone call resulted in the maid going to Lambert's room, where she found him lying mortally wounded. A coroner's jury returned a verdict of suicide. Lambert was vice-president of the Lambert Pharmaceutical company. Miss Perstrup said that Lambert was her friend and that in company with other friends he had gone with him to cafes. Never, she said, had she gone with him alone.

On Sunday morning, she said, Lambert called her on the telephone and said he was sick. She advised him to get a physician, but he said "that wouldn't do me any good. It's mental worry over Marion." This reference was to Marion Lambert, a brother, now with an ambulance unit in France.

"Early Tuesday morning," said Miss Perstrup, "he called me by telephone and said, 'Oh, I am so sick. I cannot live any longer.' I urged him to call a doctor but he said: 'No, I can't do that.' Then he hung up the receiver."

Miss Perstrup said she then called the maid to the telephone and urged her to go to Lambert's room. The maid complied and the suicide was revealed.

LEADERS IN MOVEMENT OUTLINE PLANS TO DISCUSS AT STOCKHOLM

(By Associated Press.)
LONDON, Aug. 10.—A labor party conference is in progress at Westminster to decide today whether British labor will be represented at the international socialist conference in Stockholm in September.

A committee of the labor party has prepared a memorandum giving its ideas on British labor with regard to war issues. The report endorses the demand for reparation and restoration to Belgium and other invaded countries, declares the right of individual people to settle their own destinies and demands establishment of a league of nations for the maintenance of peace.

(By Associated Press.)
LONDON, Aug. 10.—The conference voted by one million to fifty-five thousand to send delegates to Stockholm.

The conference was in an uproar ending only when the result of the card vote was announced.

GOV. CAMPBELL IS IN BISBEE

CITIZENS OF COCHISE COUNTY WARNED OF LEGAL CONSEQUENCES

(By Associated Press.)
BISBEE, Ariz., Aug. 10.—Thomas E. Campbell, governor of Arizona, arrived in Bisbee last night and announced that he would remain in the Warren district "until the officers of Cochise county promised to keep within the law, or the situation is otherwise cleared up in its entirety."

The governor said he was in Bisbee to further investigate local conditions and determine whether the people were receiving their constitutional rights. He said he had received a message from Attorney General Wiley N. Jones, who still is in the Warren district, that the people of Bisbee were determined to pursue the same course as that taken at the time of the deportation of more than 1100 men July 25.

When asked whether or not he contemplated asking the federal government to send troops into the Warren district and whether or not he would declare martial law, the governor said he had authorized no statement to that effect and would not discuss his plans.

ABSOLUTE COMMAND OF THE AIR ENABLES THE ALLIES TO GAIN VALUABLE INFORMATION IN REAR

(By Associated Press.)
BRITISH FRONT, FRANCE-BELGIUM, Aug. 10.—The English attacked at daybreak today and captured virtually all German forward positions east of the Belgian town of Hoge on a battle front between Fresinbrug and Ypres, on the Menin road. The assaulting forces gained virtually all objective to a depth of several hundred yards in the first rush. The German defense then stiffened and heavy fighting developed. Latest reports are that the British are holding the new line.

(By Associated Press.)
LONDON, Aug. 10.—French forces on the left flank of the British line in Belgium have progressed further east and north of Bixschots. British raiding parties broke into German dugouts on a wide front east of Monchy on the Arras front and greatly damaged Teuton defenses. On the front directly east of Ypres, the British completed the capture of the town of West Hoek and secured the remaining positions held by the Germans on West Hoek.

(By Associated Press.)
PARIS, Aug. 10.—The French pro-

gressed in Belgium. They broke into the German lines and occupied several farms east of Bixschots, west of Langwarck, where they captured a number of machine guns. Germans attacking on a one mile front in the region of Fayet were repulsed except at the center where they gained a foothold in the advanced trenches.

The Germans also violently attacked the French lines between the Pantheon farm and Epine des Chevregny on the Alsace front. Some German detachments which penetrated the French trenches were either killed or captured after a hard hand fight.

(By Associated Press.)
LONDON, Aug. 10.—General Maurice gives an interesting resume of the detailed reports which he had received on the air fighting in the Flanders battle of July 31.

"On the day of the attack," says General Maurice, "the weather conditions were as nearly impossible as could be imagined—low clouds of great density, haze and mist. The observation was almost nil and as a result the artillery was under a severe handicap, having to work

without adequate observations. "But the airplanes were enormously busy in other departments. More than 100 engagements were fought by airplanes with the forces of the enemy on terra firma, our planes in these cases descending often to within less than fifty feet of the ground and sweeping the hapless enemy with their machine guns or bombing them. The enemy airplanes were well high helpless to interfere.

Less than twenty flights in the air occurred because the enemy did not dare come up, and in these flights we downed six enemy machines while we lost only three. There were eleven cases of machine gun attacks on German airdromes by British machines.

"Our airmen swooped down to an altitude lower than the tree tops and fired string after string into the German hangars, killing mechanics, damaging machines and blowing up workshops. Similar attacks were made repeatedly on parties of marching troops, on working parties and on transports.

"During the afternoon, one of our airmen, cruising aloft several miles behind the German lines, spied a German staff car containing four staff officers speeding along a country road. He swooped down and followed the car five miles. The excited passengers, while urging the chauffeur to find shelter, stood up in the car, drew their revolvers and fired wildly into the wings of the big bird which was flying overhead. "The pilot finally got the car into the right position in front of his machine gun and swept the car with a hail of bullets, killing two of the officers. The car then stopped abruptly and the two other passengers rushed to a farm house for refuge. "That is the sort of thing which went on behind the enemy's lines throughout the day of the attack. We had absolute command of the air."
